The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also create emissions; learn more at fueleconomy.gov.</div> |  |
| <div>Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,000 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$ 3.10 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.</div> <div>fueleconomy.gov</div> <div>Calculate personalized estimates and compare vehicles</div> <div></div> <div>Smartphone OR Code </div> |  |                                                                                                                                                                                                                                                                                                                                                                                                      |  |
